3+ Years of experience with React.js & Next.js

Web / App Design
3+ Years of experience with Figma & Adobe XD as well as Canva w/ Pro.

App Development
About 1.5+ Years of experience with React Native / Expo + Typescript.

Backend / Infrastructure
3+ Years of experience with Node.Js / Express + Heroku w/ PostgreSQL or MongoDB.

PROJECTS

Show Store: E-commerce Demo   **Visti Website**

This website is a demo e-commerce store with a full GraphQL backend and a MongoDB database, but it also allows you to add your own local modifications to the store via the Admin Menu.

Personal Terminal Portfolio   **Visti Website**

This is a Terminal-like portfolio website created by me with Next.Js and Scss. You can start by visiting the website & typing `help`, for more info visit the github repo.

Notes App (Made with T3 Stack)   **Visti Website**

This app is more focused on the authentication functionality rather than the actual aplication. I made this app to test out the T3 Stack and play around with Next Auth's authentication and authorization functionality.
